THE
GALLERY

A home designed for an indoor and outdoor lifestyle

Architecturally designed to maximise viewing lengths from all aspects of the home, The Gallery provides a versatile home for families.

A stone clad feature wall, arched front door and the feature planter box framing the large triangular window that allows the natural light into the study, distinguishes this home from the street.

Walk through the front entry to a flexible open plan living area with feature ceilings. The integrated kitchen, living, dining and games rooms are the perfect space to entertain friends and family.

The spacious kitchen with island bench overlooks the dining and living areas. Both the dining area and kitchen offer direct access into the alfresco – the ideal layout for indoor/outdoor living.

The side courtyard, accessed from the living area, is the perfect area to escape to and relax.

Three additional double bedrooms with built in robes are located at the rear of the property with a centrally located bathroom.

The large parents' quarters, at the front of the property, offers the perfect sanctuary. A large walk in robe and ensuite with bath and oversized shower, and a generous bedroom with easy access to the well-positioned study – perfect for those who like to work from home – provides a well appointed and practical space for relaxation.

The double garage provides direct access into the home. The Gallery provides plenty of storage for any growing family.

With its luxurious proportions, The Gallery is a home where you have the space to entertain, relax and simply enjoy life.
